

Smart Traveller Rewards Programme Enhances Travel Experience with VariFlight DataWorks-Powered Real-Time Flight Information System

Hong Kong – 14 August 2026 – The digital rewards platform by Plaza Premium Group (PPG), Smart Traveller, launches its Flight Information Display System (FIDS) with VariFlight DataWorks, a leading global aviation data platform.

The upgraded system offers extensive global coverage, tracking commercial flights worldwide. With access to data from over 1,200 airlines and 10,000 airports, the platform monitors more than 170,000 flights daily, ensuring travellers stay informed across every stage of their journey.

For travellers, this translates into a more seamless and intuitive journey experience. Whether relaxing in an airport lounge or spending time within the terminal, users can access enhanced real-time flight updates via the Smart Traveller (ST) App under “Account” → “My Trip.” With precise and timely information at their fingertips, travellers can better manage their time, stay informed of any changes, and ensure they arrive at the boarding gate with greater peace of mind.

“The integration of VariFlight DataWorks reflects our ongoing investment in smart travel solutions that benefit both our customers and operational partners,” said Simon Huang, Managing Director, Smart Traveller. “By combining robust data capabilities with user-centric design, we are elevating the end-to-end airport experience.”

The new feature will be supported by a series of promotional activities in the coming weeks, alongside further enhancements.
